

ANIMAL WASTE STORAGE & LIVESTOCK FACILITY FEES ①	
	2025
Base Permit Fee	
Application Processing	\$325
Manure Closure Fee	\$200
Engineering Site Evaluation ②	
Soils Investigation Base Fee ③	\$1,995
Additional Soil Test Pits ④ (p/pit)	\$90 p/pit
Design Review and Inspection	
Designed by others, reviewed by LCFM ⑤	
-Waste Storage Facility	\$3,290
-Transfer Only	\$1,500
Nutrient Mgt. Plan Review & Monitoring	
Nutrient management plan review ⑥	\$665
Late Nutrient Management Plan Submittal & Certification Fee ⑦	\$70/notice
After the Fact Permit Fee ⑧	TBD

1. Agricultural Performance Standards, Manure Storage, and Livestock Facility Management Ordinance fees have been adjusted for 2025 assuming a 3% rate of inflation and rounded to \$5 increments.
2. 2025 fee adjustments for engineering services are based upon hourly estimates of service costs and represent a portion of total costs incurred.
3. Base fees have been established using the average number of soil test pits required for the different size categories of livestock facilities. Base fees assume up to 10 test pits.
4. Additional test pits may be required to meet tech guide standards. Fees for additional test pits will be charged at \$90/pit. In circumstances where it is necessary to remobilize to conduct additional test pits that were not originally planned, a \$200 mobilization fee will be charged in addition to the standard \$90 per pit charge.
5. Design review and inspection fees apply to facility designs completed by private sector engineers or other public agencies.
6. Fees charged for initial and revised nutrient management plan review will be assessed for all facilities subject to the Chippewa Co. Agricultural Performance Standards, Manure Storage, and Livestock Facility Management Ordinance that were either newly permitted, constructed, or altered after 12/31/18.
7. Late reporting fees will be charged to all active Farmland Preservation agreements, County Cost-share contracts, and Agricultural Performance Standards, Manure Storage, and Livestock Facility Management Ordinance permits— in circumstances where annual certification or submittal of supporting records is required, and where the material is not received by the established date.
8. An After the Fact Permit Fee is issued when construction starts prior to permit approval. The total applicable fee is doubled (application, site evaluation, review, inspection).
